

## NOTICE

Fiduciaries,

Without due process, Beneficiaries claims due payment have been moved to a "hold" queue with the J.T. Thorpe Trusts. Beneficiaries suspect this again relates to 'sham' and bad faith audits being 'conducted' by the Thorpe Trusts (...a clear misappropriation of Trust funds...).

To date, each audit request has been responded to diligently with verified and (without Mike Rooney fraud) undisputed proof of exposure to Thorpe products. Every claim was competently filed with ALL available information (including a PID database of many millions of pages), multiple interviews with clients, supplemented by SSR information in all cases. Nonetheless, you perpetuate these audits in bad faith to harm Trust Beneficiaries, Claimant's Counsel, and Future Claimants.

Why? Trust Fiduciary (Rooney) is fictitiously and fraudulently attempting to show bad faith claims by Claimant's Counsel to misdirect the perpetual fraud, bad faith, and corruption taking place at the J.T. Thorpe Company Trust under Rooney's direction (no doubt to continue the concealment of his own fraud and the fraud of corrupt Trust Fiduciaries Steven Kazan, Alan Brayton and others - the "kings of Double Dipping").

Is the U.S. Trustee or Department of Justice on the verge of investigating these Trusts? Who knows?

Please allow this to serve as a formal Notice (to be published on my blog/Twitter/e-mailed to the author below et al). I want to be SURE it is properly published. Have you seen the current Forbes Article - "Cleaning Up the Asbestos Litigation Mess - A Role for the Justice Department". I provided a link below. I will be certain to share this with the author.
